

Foundation: 1995 » 50 centres

Currently: >200 centres » > 2.500 professionals

Goal: continuous improvement of fertility centres

Tools: Latin American Network of Assisted Reproduction (RLA), accreditation, education and professionals certification programs.

Education: PEC Online (Online Continuous Educational Program) on Clinical, Embryology, psychology and Nursery areas, with more than 300 professionals / year.

Final achievement: improvement of excellence, results and safety to the final client.

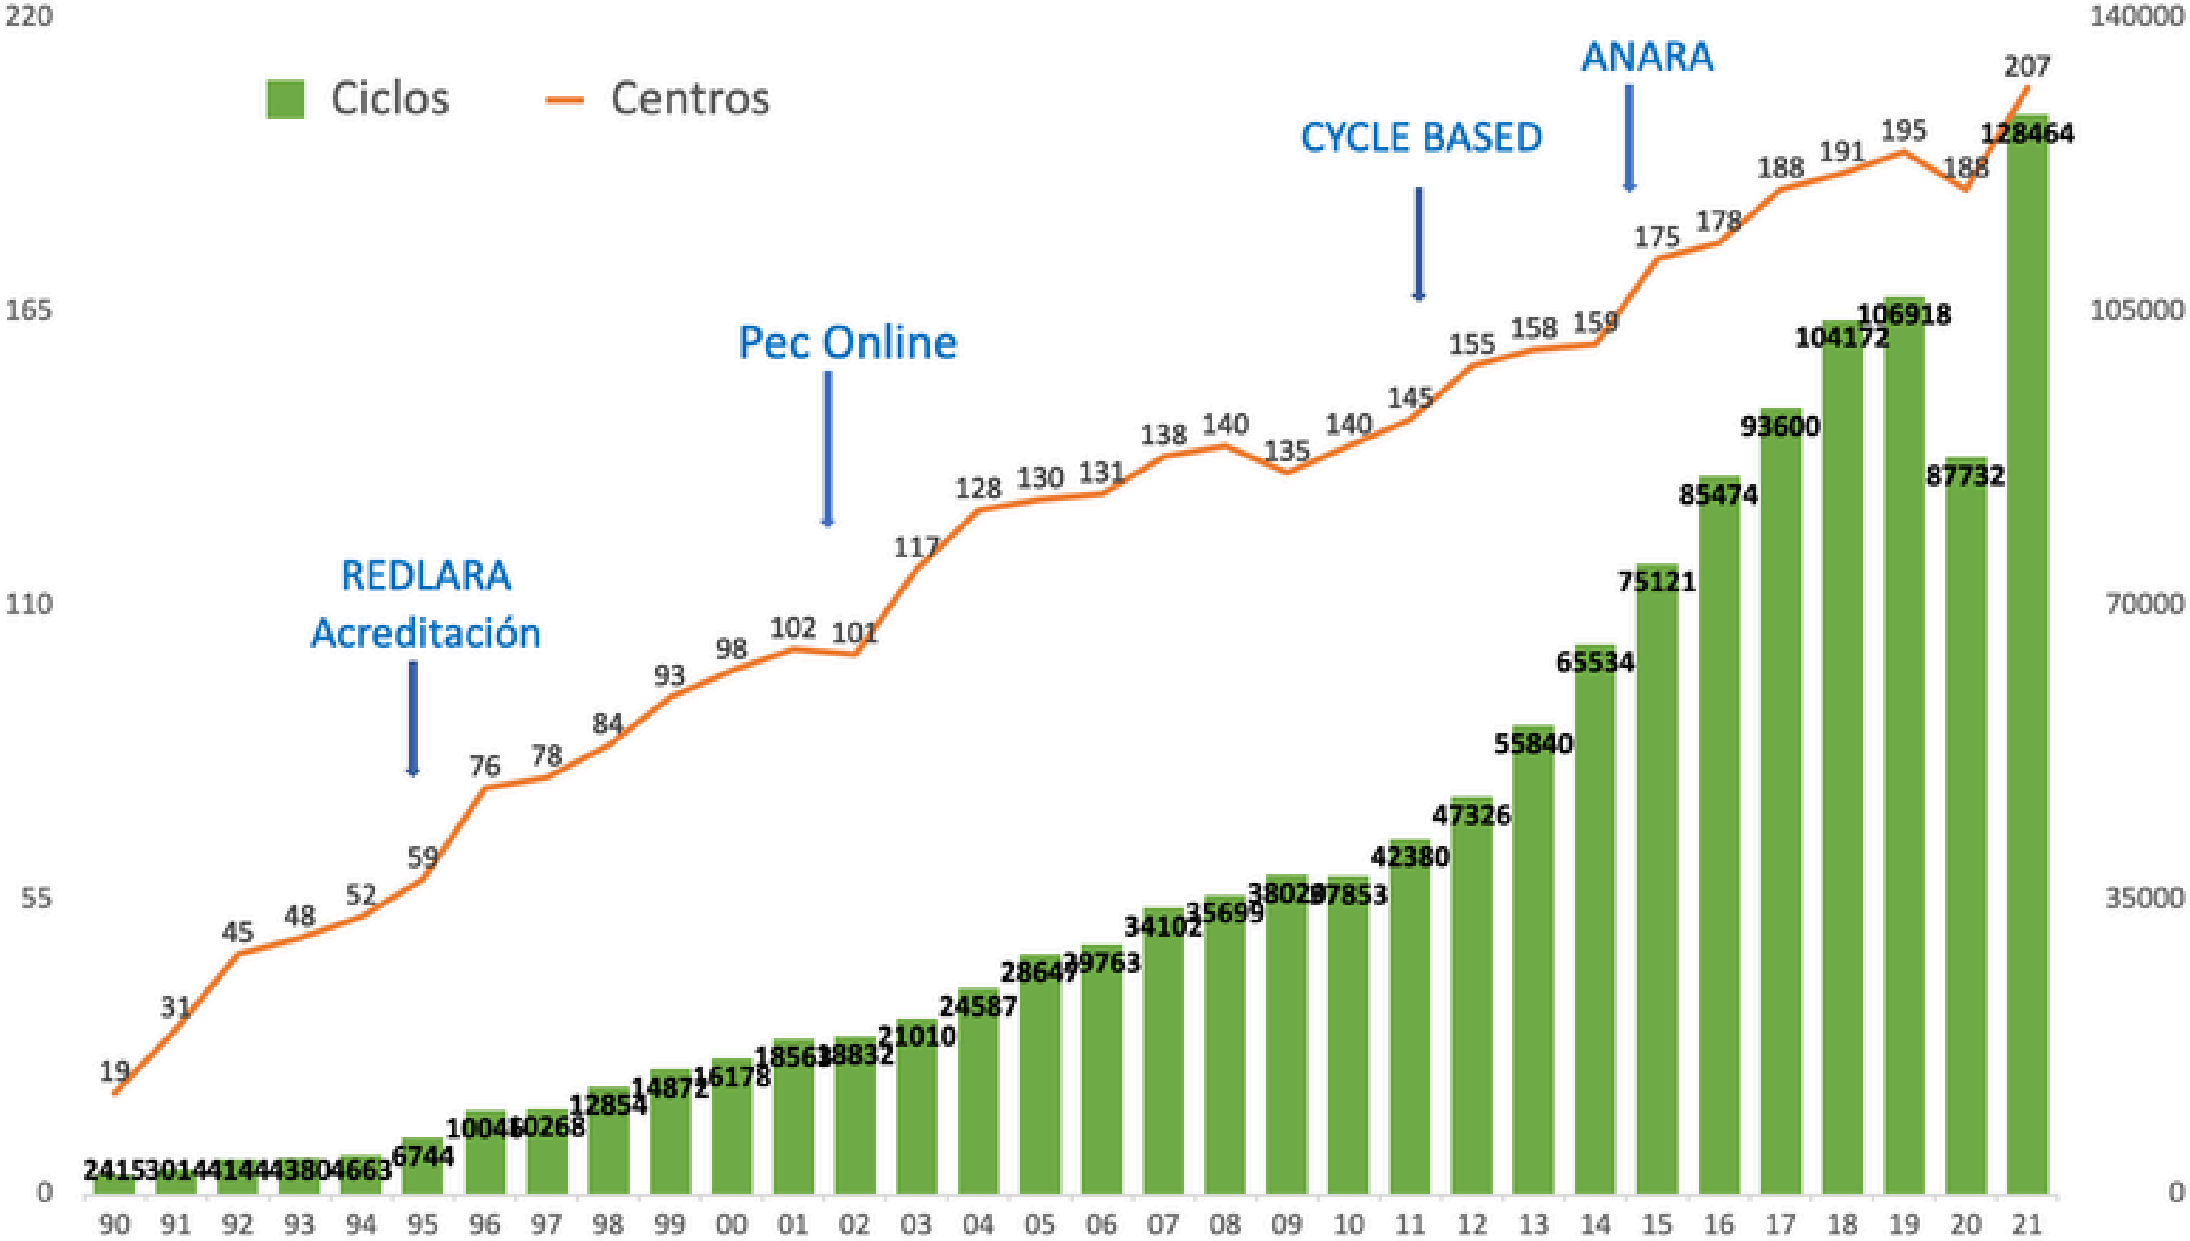

# LATIN AMERICAN CONGRESS ON ASSISTED REPRODUCTION

Starting in 2025, annually! The growing number of centres accredited to REDLARA, reflected in the number of cycles reported annually by the Latin American Registry of Assisted Reproduction, points to the need to hold annual general conferences, in addition to small, specific regional initiatives.

## Registro Latinoamericano de Reproducción Asistida 1990 - 2021

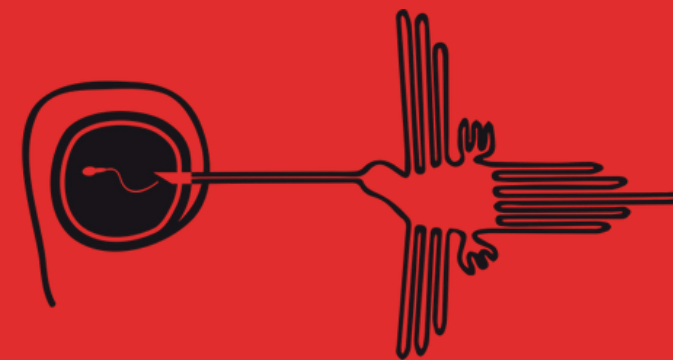

Latin American accredited centres by REDLARA:

Represent a 50% of the fertility programs in Latam, under a continuous evaluation and revision of physical areas, documents, professional education and data reported.

Last RLA report: 130.000 cases, which represents 80–85% of the procedures performed in all Latin America.

## BEYOND LATIN AMERICA

17th REDLARA 2025 brought together professionals from 23 Latin American countries, USA, Europe and Asia.

## SCIENCE

REDLARA conferences combine a theoretical scientific programme that addresses the latest developments in assisted reproduction worldwide and topics of profound interest to Latin America, as well as practical workshops for clinical and laboratory areas.

## EDUCATION

100 professionals took the professional certification exam and our clinical and laboratory education programmes from PEC Online, our Online Continuing Education Programme (by REDLARA).

## ACCESS

REDLARA's objective is to carry out social activities, such as conferences on fertility preservation and free care for couples in the city where we hold our events.

## IDENTITY

For REDLARA, it is very important to value and respect our Latin American identity. We created our mascot, Lara, who symbolises the teamwork and organisation that takes place in our accredited centres.

## COMMUNITY

A large continent, several countries, but we value our members and always strive to highlight their work and contribution to our community. This work is strengthened every day, and in person, at our conferences.

## ECO FRIENDLY

We take care to ensure that our events generate as little waste as possible, avoiding plastics and non-recyclable items, as well as waste. #SomosREDLARA

## PARTNERSHIP

Our conferences are an excellent opportunity to meet with the directors of the leading reproduction centres from all Latin American countries. All in one place!

## ... CLOSELY

We organise activities such as a welcome cocktail reception and five coffee breaks in the exhibition area, in a pleasant and welcoming environment, making this experience an excellent first step towards attracting new customers and strengthening relationships with existing ones.
